This cartridge is covered by the following U.S. Patents: 3,546,399, 3,602,519, 3,646,279, as well as corresponding patents or pending applications in the leading industrial nations throughout the world.

### FULL ONE YEAR WARRANTY

Pickering & Company, Inc., of 101 Sunnyside Blvd., Plainview, New York 11803, hereby warrants to the owner of this cartridge that the cartridge and stylus originally purchased in the United States with this warranty shall be free from defects in material and workmanship for a period of one year from the date of original purchase. Proof of date of original purchase must be retained by you. In the event of any defect covered by this warranty, the cartridge should be carefully packed and sent prepaid with proof of date of original purchase to Pickering & Company, Inc. at the above address and the cartridge will then be repaired or replaced without charge and promptly returned to you prepaid. If it cannot be repaired or replaced in a reasonable period of time, you may elect to receive a product of equal value, or a refund.

Consequential damages are excluded from this warranty. The warranty shall not extend to stylus wear nor to damage resulting from abuse or misuse of the cartridge or stylus.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

This warranty applies to products purchased by the consumer in the United States.

## INSTRUCTIONS

1. Remove required mount from plastic frame.
2. Slide the front end of your cartridge into the matching keystone slot of your chosen mount until the lock snaps (see Fig. 1 & 2).
3. For mount **A**, use the self threading screw supplied by BSR.  
For mount **B** or **D**, press studs securely into Garrard or BSR arm head or adapter as in Fig. 3.  
For mount **E**, use the screws provided with your record player to secure mount to head with screws from the bottom.  
For mount **J**, use the self threading screws supplied with this cartridge to secure mount to head with screws from the top.
4. Connect colored wires to color coded terminals (see Fig. 4).

**NOTE: Do not solder to terminal pins.**

**NOTE: Garrard & Dual match colors, BSR uses black in place of blue.**

5. Your Pickering cartridge is supplied with a protective stylus cover. Remove after cartridge is installed but *before* tracking force is adjusted.

6. Adjust stylus force as shown in chart.

(Fig. 1 & 2)

(Figure 4)

(Figure 3)

**To remove the V-Guard™, simply grasp the V-Guard between the tips of the thumb and forefinger pull gently to remove the stylus assembly. **Note:** Please handle carefully when removing and replacing it as shown.**
